Cambridge for the IB Diploma

Building the brighter thinkers of tomorrow, together

Developed with IB teachers through extensive global research as well as insight from our community of teachers, the Cambridge Panel.

Created by expert IB authors, practising teachers and examiners who fully understand the challenges that you face in the classroom.

Designed for exam success

Through the quality and rigour of our exam-style questions, worked examples and exam tips, your students will be fully prepared for assessment.

Visit cambridge.org/ibdiploma for more information

Plan for a brighter future

Your influence makes more difference to what students can achieve than any other aspect of schooling. We are here to support you with data that can inform and evidence your decision-making.

CEM IBE

The Cambridge CEM IBE assessment is a post-16 assessment system for schools and colleges following the IB Diploma Programme.

Inspire students to fulfill their potential

- Identify key areas for development
- Get ahead with planning
- Set realistic and challenging targets
- Track progress and plan support

" The assessment provides statistically secure data from which we can set realistic yet challenging grade targets for our students."

Theory of Knowledge for the IB Diploma

Wendy Heydorn, Susan Jesudason and Richard van de Lagemaat

This series takes your students on a journey to explore 'what is knowledge?' and 'why, and how do we learn?' It helps students flourish as knowers by leading them to make connections across areas of knowledge and themes, as well as helping them understand how Theory of Knowledge (TOK) manifests in day-to-day life.

Written by our experienced authors and developed through global insight from TOK teachers around the world and on the Cambridge Panel.

Course guide

- 'Before you start' questions at the beginning of each chapter challenge students' thinking habits and spark discussion before the unit starts
- 'Explore' activities lead your students into the exploration of the TOK core, optional themes and areas of knowledge
- 'Real-life situations' help students see how TOK themes manifest in the world around them
- 'Linking questions' help students make connections across themes and areas of knowledge
- 'Discuss' questions promote debate in the classroom
- 'Reflection' features encourage students to analyse their development as knowers
- ESL learners are supported with clear and concise language including key term pull-outs and explanations
- A dedicated assessment chapter provides students with a wealth of activities that refine the skills needed to excel in the essay and exhibition
- Ethics is integrated in the course as a running thread throughout the content

Decoding Theory of Knowledge skills book

This flexible resource supports your knowers in their exploration journey, helping develop critical thinking skills and the ability to make new connections between areas of knowledge. It gives practical advice and plenty of opportunities to unpack and practise the assessment tasks.

Teacher's resource

Written in collaboration with TOK teachers from the Cambridge Panel, this guide provides tried and tested activities that arm you with lesson-planning ideas, an EAL focus, essay-writing support, advice on tackling common misconceptions, activity worksheets and more.

throughout, with a glossary at the end of the book to further build students' vocabulary.

Creativity, Activity, Service (CAS) for the IB Diploma

An essential guide for students

John Cannings, Maria Ines Piaggio, Peter Muir and Tom Brodie

Student guide

- With the digital edition, videos show CAS Coordinators talking about how to plan a successful CAS project, as well as CAS students providing their insight into the course
- The course helps students with everything from planning to time management
- As well as students, the resource is also helpful for CAS Coordinators and those involved in planning student CAS projects in their school

Introducing the IB Diploma Programme 978-1-107-60628-9

English A: Language and Literature for the IB Diploma

Second edition Brad Philpot, David McIntyre and Tim Pruzinsky

This best-selling series has been fully revised and updated for the new syllabus for first examination from 2021.

Coursebook

- The entire course consists of activities for student engagement, from individual moments of reflection to group discussions
- The coursebook is clearly organised into three sections text types, global issues and assessment - helping you to focus lessons on specific aspects of the course
- The first section defines and explores a range of literary and non-literary text types, such as street art, graphic novels and poetry
- The 'Global issues' section integrates all three areas of exploration (readers, writers and texts; time and space; intertextuality)
- Higher Level extension activities in each unit of the coursebook help prepare for higher level essay writing
- The final section of the coursebook includes specimens and samples of Paper 1, Paper 2, the individual oral and the Higher Level essay to help students prepare for assessment
- The new key concepts and guiding questions are integrated throughout the coursebook, giving you a clear pathway through the syllabus
- Curated video links in both the coursebook and teacher's resource suggest suitable videos
- The coursebook is full of ideas to help students build a learner portfolio

Teacher's resource

- The new digital teacher's resource gives you plenty of support, including schemes of work to help with midterm planning
- Contains PowerPoint presentations and photocopiable worksheets for ready-made class materials
- Teacher development essays help you with differentiation and text selection

This digital teacher's resource is available on the Cambridge GO platform.

for the IB Diploma

COURSEBOOK

Brad Philpot

NEW

Exam preparation and practice

New resource to give students confidence in approaching assessment:

- Includes an introduction to assessment
- Graded sample responses with examiner comments (includes audio)
- Two full practice tests
- Assessment for learning approach

Author snapshot

Brad Philpot is an experienced English as a first and second language teacher, consultant, textbook author, workshop leader and examiner and has organised professional development opportunities for thousands of teachers around the world (Philpot Education).

Do you have questions about teaching English A: Language and Literature?

Brad's here to help in our set of videos:

English B for the IB Diploma

Second edition Brad Philpot Anne Farrell

Explore the five themes - Identities, Experiences, Human Ingenuity, Social Organisation and Sharing the Planet - with a course that provides a clear pathway through the syllabus.

- Assessment and text type chapters help students prepare for their examinations through techniques such as scaffolded writing
- From science to health and beauty, topics are authentic and relevant to teenagers globally
- Clear unit objectives help you stay on track, with integrated exam tips and approaches to teaching and learning features throughout
- Audio helps develop listening skills and features a range of international English speakers talking about topics from each of the themes
- Links to online video resources introduce each unit and help initiate discussion
- The teacher's resource provides photocopiable resources, such as classroom worksheets, suggestions for homework, guidance on teaching strategies, online editable schemes of work and the answer key

"

The essence of this coursebook is that it is rich, providing you with masses of materials to support your English B programme.

Teacher's Book

Digital Coursebook (2 years)

English Literature for the IB Diploma

David James and Nic Amy

Explore English literature from around the world with modern genres like magical realism, to classics from Shakespeare and Dickens.

- Activities help students strengthen key skills, including academic writing and presenting ideas
- Annotated texts highlight key features and author techniques
- Timed essay boxes provide excellent preparation for writing under exam conditions
- Higher Level (HL) extension activities provide differentiated material for HL students

THESE RESOURCES ARE ALIGNED TO THE IB MATHEMATICS DIPLOMA FOR FIRST TEACHING FROM 2012.

Mathematics Standard and Higher Level for the IB Diploma

Paul Fannon, Vesna Kadelburg, Ben Woolley and Stephen Ward

These highly illustrated coursebooks cover the IB Standard and Higher syllabuses.

- Colour-coded exercises according to grade help you assess students' progress through the syllabus
- Mixed exam practice at the end of each chapter (plus a dedicated section at the end of the book for questions that cross different topics) help encourage cumulative learning
- The accompanying CD-ROM contains calculator skills sheets, extension worksheets, supplementary sheets and fill-in proofs, providing support for students of varying learning backgrounds
- Option Topics available on the Higher Level CD-ROM
- Fully worked solutions manuals for all of the colourcoded examination-style questions

Mathematical Studies Standard Level for the IB Diploma Exam Preparation Guide

Mathematics Higher Level for the IB Diploma: Option Topics

Paul Fannon, Vesna Kadelburg, Ben Woolley and Stephen Ward

These highly illustrated books cover Topics 7-10 of the IB Diploma Higher Level Mathematics syllabus.

- Contains worked examples, exam-style questions, exam hints and tips and calculator skills sheets
- Features a dedicated chapter exclusively for mixed examination
- The progressive approach encourages cumulative learning
- Available to purchase separately

Topic 7 - Option: Statistics and Probability	978-1-107-68226-9
Topic 8 - Option: Sets, Relations and Groups	978-1-107-64628-5
Topic 9 - Option: Calculus	978-1-107-63289-9
Topic 10 - Option: Discrete Mathematics	978-1-107-66694-8

Mathematical Studies for the IB Diploma

Caroline Meyrick and Kwame Dwamena

This course focuses on placing more emphasis on student understanding of fundamental concepts than on symbolic manipulation and complex manipulative skills; giving greater emphasis to developing students' mathematical reasoning, rather than performing routine operations; solving mathematical problems embedded in a wide range of contexts; and using the calculator effectively.

- The significance of mathematics for modelling and practical applications demonstrates how mathematics is relevant to the real world
- Features exam hints and tips to prepare students for their examinations, as well as TOK issues, cross-curricular support and critical thinking issues
- Worked examples of stage-by-stage written solutions show typical working and thought processes

Second edition

Chris Fuller, Virginia Toro, María Isabel Isern Vivancos, Alicia Peña Calvo, Samantha Broom and Víctor González

This new edition supports the IB Diploma Language *ab initio* guide for first examination from 2020.

Designed to guide students through the courses for the IB Diploma programme.

- Contains material designed to engage older teenage learners, with topics from high school life, to society and technology
- Covers key IB texts, themes and all elements of the examination, with TOK and CAS integrated into the learning
- Created by a team of experienced authors of language resources in collaboration with IB *ab initio* examiners
- Encourages practising the language in context through activities that cover all aspects of language acquisition: listening, speaking, reading and writing
- Improved workbook with extra grammar and vocabulary practice

5 warm-up games to get students speaking

1. The Maze: Ask students to create a maze and write directions in the target language to guide their classmates to the destination.

2. Throw the Ball: Give a ball to a student and ask them to say a sentence using a chosen verb. Pass the ball from student to student to create a story together.

3. Secret Message: Student A whispers a secret message to Student B, who then whispers the same message to Student C. Is it the same secret message at the end of the line?

4. The Desert Island: In pairs, ask students to discuss what ten objects they would take to a desert island if they had to live there for a year. Why would they choose these objects?

5. Two Truths, One Lie: Students tell two truths and one lie about themselves. Their classmates discuss the statements and guess which the false one is.

Languages B for the IB Diploma

Second editions

These new editions support the IB Diploma Language B guide for examination from 2020.

As students explore thought-provoking materials within the themes and topics of the new guide, they develop wellrounded language skills and solid critical thinking, helping them succeed in their examination and unlock opportunities in the real world.

- Big questions at the start of each unit introduce important world issues and ensure students' learning reflects the mission of the IB Diploma - 'to create a better world through education'
- Listening activities in each unit help students practise this essential skill and prepare them for the new assessment
- Sections on literature give Higher Level students the opportunity to practise for their individual oral exam
- Activities in the style of the exam give students the opportunity to develop their language skills while preparing for the new assessment
- Links to TOK, EE and CAS help students make connections with the IB Diploma Core
- Conceptual Understanding and Approaches to Learning are fully integrated into the coursebook, encouraging students to improve these skills
- A specific section on text types, updated to conform to the new guide, helps students master different types of text

Deutsch im Einsatz German B course for the IB Diploma

Second edition Sophie Duncker, Alan Marshall, Conny Brock and Katrin Fox

The students can work independently on the task and follow up what is needed.

Gul Uyar, Language Teacher, AISR (American International School of Rotterdam)

In this short video, author Alan Marshall takes us through the core components of the Languages B resources for the IB Diploma and how these are geared to set your language learners up for success.

History for the IB Diploma Papers 1 and 2

Second edition Series Editor: Allan Todd

IB Diploma History syllabus for examination from 2017.

- The titles are source-led and encourage the development of investigative, interpretive and analytical skills, which help your learners become independent thinkers
- Relevant links to TOK and Key Concepts in the syllabus encourage reflective discussion and help students integrate these concepts into their wider learning
- Activities foster an exploratory and inquiring approach, and exam-style questions help prepare students for assessment
- The series covers topics from the Standard and Higher Level options

Paper 1: History for the IB Diploma, Paper 1 includes a choice from three coursebooks that each cover a 20th century topic from the syllabus: *The Move to Global War* (Japanese and German/Italian expansion), *Rights and Protest* (US Civil Rights and Apartheid) and *Conflict and Intervention* (Rwanda and Kosovo).

Paper 2: History for the IB Diploma, Paper 2 includes a choice from five coursebooks that each cover a 20th century topic from the syllabus: *Independence Movements* (1800-2000), *Evolution and Development of Democratic States* (1848-2000), *Authoritarian States* (20th Century), *Causes and Effects of 20th Century Wars* and *The Cold War: Superpower Tensions and Rivalries*.

Paper 1 (Choose 1)	
Rights and Protest	978-1-107-55638-6
Conflict and Intervention	978-1-107-56096-3
The Move to Global War	978-1-107-55628-7
Paper 2 (Choose 2)	
Authoritarian States (20th Century)	978-1-107-55889-2
Evolution and Development of Democratic States (1848-2000)	978-1-107-55635-5
The Cold War: Superpower Tensions and Rivalries	978-1-107-55632-4
Causes and Effects of 20th Century Wars	978-1-107-56086-4
Independence Movements (1800-2000)	978-1-107-55623-2

Economics for the IB Diploma

Ellie Tragakes

Your students will develop a solid understanding of economic theory and how it manifests in the real world. In addition to helping students obtain the best results, it encourages them to become internationally minded citizens and develops core problemsolving skills.

Written by an experienced author and examiner, and developed through global insight from IB Economics teachers around the world and on the Cambridge Panel.

Coursebook

- 'Before you start' questions at the beginning of each chapter challenge students' opinions around key economic themes and spark discussion before the unit starts
- 'Learning objectives' link to the assessment objectives in the guide, helping students know exactly what they need to focus on in each section
- 'Real world focus' activities link economic theory to real-life international events and include 'Applying your skills' questions
- ESL learners are supported through clear and concise language, with key points and vocabulary highlighted throughout and reviewed in the glossary
- Links to TOK encourage students to explore economics topics from different perspectives
- 'Inquiry' and 'reflection' activities at the end of each chapter get students reviewing their own learning
- At the end of each chapter, links to exam-style papers on Cambridge GO give extensive practice for the new assessment tasks so your students can be fully prepared for exam success

Teacher's resource

This wide ranging guide offers support for exam preparation and practice as well as answers to questions and activities from the coursebook. Detailed teaching notes for each chapter include guidance around learning and assessment objectives, suggested activities, support for EAL and details of subject specific vocabulary. Powerpoint slides featuring diagrams from the book are also available to use within teaching.

Coursebook and teacher's resource

Ellie Tragakes

Ellie has a BA from Columbia University, MSocSc from the University of Birmingham, and PhD from the University of Maryland. She has worked in a variety of organisations including the World Bank and World Health Organization. She has written numerous professional publications and authored the previous edition of our popular *Economics for the IB Diploma* series. Ellie is a highly experienced teacher and IB examiner.

Psychology for the IB Diploma

Jacob Solomon

IB Diploma Psychology syllabus for examination from 2019.

Delve into human behaviour by studying real cases. Through studies of famous psychologists, students learn about the diversity of human behaviour and the factors that influence our decisions.

- The 'Newsflash' feature gives real-life examples of psychology, so students see how the subject relates to the world around them
- International case studies and concise definitions of important concepts make this an ideal resource for learners whose first language is not English
- Exam-style questions at the end of every chapter help students prepare for assessment
- The coursebook covers both Standard and Higher Level content
- Suggested answers to the coursebook questions are at the back of the book so students can study in their own time

Business Management for the IB Diploma

Second edition Peter Stimpson and Alex Smith

IB Diploma Business Management syllabus for examination from 2016.

Help your students think critically, make ethically sound decisions and think strategically with *Business Management for the IB Diploma*.

- Includes IB Learner Profile research tasks, Key Concept extended questions and TOK activities
- Contains exam-style practice questions and a dedicated chapter on assessment and exam techniques
- Updated case studies prompt group discussion and critical thinking opportunities

Would you like help with revision for your class?

"

We like it so much we have aligned all of our schemes of work to include readings and activities from each topic... It combines clarity, readability and core IB Business Management knowledge very effectively, and has great case study questions to get the student thinking. As a nice touch, the authors have also included revision questions targeting Core revision knowledge this time around.

David Burton, IB Business Studies Teacher and founder of www.businessmanagementib.com

Teachers play an important part in shaping futures. Our **Dedicated Teacher Awards** recognise the hard work that teachers put in every day.

Congratulations to our winner and finalists!

Digital Coursebook (2 years)	978-1-316-64110-1

"

It is a rare thing for a textbook in art to be available, let alone one that could so readily reduce the countless hours spent selecting comparable materials to present; while additionally clarifying the understanding of the instructor's role as facilitator, student's role in inquiry learning, and the general 'IB-ness' of the course.

Cambridge School Shakespeare gives the tools most students need to decipher the text on their own. The combination of the pageby-page glossary and summary are invaluable in giving students confidence in reading and analyzing Shakespeare.

Eustacia Wilson, Queens High School for Language Studies, USA

Cambridge School Shakespeare

Founding Editor: Rex Gibson

Cambridge School Shakespeare helps you deliver an active approach to classroom Shakespeare, enabling students to inhabit Shakespeare's imaginative world in accessible and creative ways.

Dramatic experience is at the heart of the series, with students encouraged to share Shakespeare's love of language, interest in character and sense of theatre.

Latest editions:

- An improved, larger-format edition of the *Cambridge School Shakespeare* plays, extensively rewritten, expanded and produced in an attractive new design
- Substantially revised and extended in full colour, classroom activities are thematically organised in distinctive 'Stagecraft', 'Write about it', 'Language in the play', 'Characters' and 'Themes' features
- Extended glossaries aligned with texts of the plays for easy reference

Cambridge Mathematics Teaching series

The Cambridge Mathematics Teaching series is for secondary school mathematics teachers who are interested in learning new methods for teaching concepts. The series has been informed by the work of the Cambridge Mathematics team and provides new approaches to mathematical topics. These give you theoretical and practical knowledge when applying ideas in the classroom. For more information on Cambridge Mathematics please visit www.cambridgemaths.org

Teaching Probability

Jenny Gage and David Spiegelhalter

We know why probability is important - first, it is an intrinsic part of mathematics, with attractive methods to solve challenging abstract problems. But perhaps more important is its relevance to the real world, as it provides the formal framework for dealing with chance, randomness and uncertainty in general.

- *Teaching Probability* focuses on methods you can apply to help your students engage with the topic, such as using experiments and mathematical models to solve problems
- Considers how to overcome common misconceptions

Teaching Statistics

Darren Macey and Will Hornby

Statistics has developed in parallel with the advances of technological and social change. This book frames the interconnectedness of the subject around the experiences that students should have, rather than the specific techniques required.

• The book provides numerous examples and suggestions that you can incorporate in the classroom to help improve the way students understand statistics

Approaches to learning and teaching: a toolkit for international teachers

These subject-specific guides provide teachers with a range of practical ideas, from classroom activities to differentiation, active learning, reflective practice and formative assessment. They're ideal if you are studying a professional development qualification or international PGCE.

The Approaches to learning and teaching series considers the local and global contexts when planning and delivering a syllabus. It has been written in collaboration with the world's largest provider of international education programmes and qualifications for 5 to 19 year olds, Cambridge Assessment International Education.

The titles present ideas in the context of subject and give practical examples that help you put theory into context. In addition, with each title you get a variety of lesson ideas you can download from our website.

Library packs

Available in a whole series pack of 12 subject titles and a core subject pack of five titles: Science, Mathematics, First Language English, English as a Second Language and Global Perspectives. The library packs give you the opportunity to apply consistent approaches to learning and teaching across your school at a reduced price. Help all your teachers, or trainee teachers, put tried and tested teaching theory into practice.

Working with

Cambridge Assessment International Education

Building brighter futures together

We put teachers first and work with Brighter Thinkers

Everything we do begins with you, and a clear understanding of your needs and aspirations - because we believe teachers are at the heart of learning.

We learn from, and work with leading educationalists and authors in Cambridge and around the world to embed best teaching and learning practice. We only adopt evidence-based approaches in our resources. To support teaching and accelerate learning

Practical and proven pedagogy

We embed approaches to teaching and learning which engage and motivate students to participate in an active classroom.

Language of learning

We work carefully to use language that enables learners to understand new and challenging concepts and to develop English as the language of the classroom and beyond.

Toolkit for teachers

We offer a blend of print and digital resources, together with a range of professional development services, designed to enhance lesson planning, delivery and assessment.

And develop skills for life

Our approach encourages students to be creative and critical thinkers, to be resourceful collaborators and communicators, and to be confident problem solvers and decision makers in education and in life.
