Following a violent outburst at an awards ceremony, Vidor Kiraly, a prize-winning neuroscientist and Cambridge don, is sent to an isolated psychiatric clinic in the Swiss Alps. When the clinic's director, Anton Gessen, tries in vain to unearth the missing pieces of Vidor's life, he suspects his reluctant patient is not who he appears to be. SUZANNE HARRISON

One small island, six troubled lives, and the storm of the century is on its way.

In one of the world's most vibrant international cities, present day Hong Kong, the lives of six people become irreversibly intertwined. The past is catching up with those running from it, while the futures of others hangs dangerously in the balance. But who knows the most? And what will they do to get it?

'Most people think of Hong Kong as simply high rises and a shopping mecca for cheap handbags. But there are loads of interesting characters, plenty of political intrigue, lovely locales to reveal, cultural crossroads - and I have tried to encompass all that in to this book. There have been some great books set in Hong Kong written in English, but I do think there could be many more. The city has a lot more going for it on the story telling front and I would like to get that out there to a wider audience.' Suzanne Harrison

THE BEAT OF LIFE

REINHARD FRIEDL

The heart is our most important – and perhaps most mysterious – organ. Every day it pumps 9000 litres of blood and beats around 100,000 times. But the heart is more than just a pump. In all major human cultures, it is seen as the source of love, sympathy, joy, courage, strength and wisdom. Why is this so?

Having witnessed the extraordinary complexity and unpredictability of human hearts in the operating theatre – each one individual in its make-up, like a fingerprint – heart surgeon Reinhard Friedl went on a search for answers. He examined closely the latest findings in neurocardiology and psychocardiology, and in *The Beat of Life* he shares his discoveries, using riveting personal stories to illustrate the complex relationship between the heart, the brain and the psyche.

Key Selling Points:

- An accessible, informative read about the latest research in cardiology, written by an eminent heart surgeon

LEADING CHANGE AND BRINGING THE PEOPLE ON BOARD

JENNIFER BRYAN

1 February 2021

In a world defined by dramatic technological and economic shifts, business organizations large and small are finding themselves having to adapt and transform at an unprecedented pace. While these demands have led to numerous theories of change management – often with over-complicated methodologies and purely technology-focused approaches – the fact remains that change is primarily about people.

Aimed at the ordinary line manager just as much as the director of a large company, this book is a short, simple account of practical steps to lead people through change successfully, with quick and easy chapters and pertinent case studies. Drawing on the author's own tried-and-tested ABChange Model, *Leading Change – and Bringing the People on Board* will help you to find the change strategy that is right for your business.
