

180 Days of Science series

Master science skills with quick and purposeful daily practice!

SELLING POINTS

- Each book provides 180 daily activities to build students' learning
- Students will build key skills and confidence in each subject area while parents can use the related data to inform instruction.
- The quick, diagnostic-based activities allow busy parents to cover science content daily.

Pub : July 2019
Format : Special/Paperback
Extent : 208 pp
Export Price : US\$8.40

THE BOOK

180 Days of Science for each grade provides parents with 180 days of daily practice to build students' science content-area knowledge. Through these weekly units, grade students will analyze and evaluate scientific data and scenarios, answer constructed response questions, improve their understanding of science and engineering practices, and increase their critical thinking and reasoning skills. Each week will assess students' knowledge of grade-level science content, and focuses on a grade-level topic within one of three science strands: physical science, life science, and Earth and space science. With these daily worksheets, students will learn to think like scientists in no time!
